

Satellite Radio represents the future of broadcast radio by offering seamless reception anywhere in the country. It is important, while I travel, to have "up to the minute" local travel information. I deserve the same access to data that is expected in other modes of transportation such as boats and airplanes. Thank you for your consideration in allowing Satellite Radio to continue its valuable service providing quality, and variety not available elsewhere. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM Radio's ability to provide the kind of programming that I demand and deserve.
